#### POLITICS AND POLITICIANS

In Illinois the secretary of state has ruled that candidates for president haven't anything to say about the use of their names in the primaries.

Ambassador Gerard's friends state that it is not probable that he can be spared from his diplomatic duties in Berlin to run as governor of New York. But the rumor that he will be a candidate will not down.

Some of the leaders of the republican party are credited with saying that the man selected to head the ticket this year must be a business giant. In this connection Senator DuPont of Delaware is mentioned, but it is argued that his war affiliations will militate against him.

The general staff of the Cuban navy has appointed a committee to study designs for a new uniform for the officers and enlisted men of the navy. The present uniform is almost exactly like that used by the United States.

Authorities of the city of Newark, N. J., which celebrates its 250th anniversary this year, have invited practically every orator of note in the country to make an address during some part of the celebration. It is figured that over 250,000 people will visit Newark during the holding of the different events planned.

On all sides the reconciliation between Theodore Roosevelt and Elihu Root is hailed as evidence that at least some of the men who in 1912 were most influential in preventing

the nomination of Mr. Roosevelt, are now ready to assist in placing him in nomination in 1916. They claim that in four years there has been a complete change in national conditions and national issues.

Floater of the Congressional Union are making a thirty-day trip, during which they will hit every one of the big cities of the suffrage states. They have at their disposal two private cars in which they will sleep and eat. The only favors they will ask of local suffragists are their votes and their bath tubs. They are traveling on a rock-ribbed expense account that allows them \$450 each for the trip. Their Pullman porter is to get exactly 50 cents a day. Waiters are to get 10 cents a meal. The suffragists say they are floaters for liberty, which is very different from being a factor for corrupt politics.

Washington reports say that what bothers most of the regular republicans in their preparation for the national convention in Chicago next June is that there is too much talk about unimportant delegations to be sent to the national convention. They are beginning to fear that this means a majority of the delegates will be free to join in a stampede to Roosevelt. Southern republicans who may be found in Washington in generous numbers at present state that most of the delegations from that section will be sent to Chicago without instructions.

The report that Francisco Villa is training several Mexican youths at military academies in the United States has not created a pleasant feeling. Whatever may be the fate of the bandit, it is declared that he has completed plans to have his propaganda continued and the men who have pledged him their support have taken the oaths of drawn swords stained with blood.

#### MEMENTOES AND RELICS OF "JUST BEFORE THE BATTLE"

London, April 15.—Packed away in the pigeon holes of the record office of the territorial regiments in London buildings are thousands of little brown parcels and canvas bags which have a pathetic interest for the relatives of soldiers who have died in action. There are letters, too, many hundreds of them,—the last line, perhaps, to parents, relatives or friends,—written just before the battle, grim relics of the fight, the canvas bags contain all that the soldier left in the way of effects. A wrist watch, a pipe or a photograph—these are but a few of the mementoes.

**Splendid for Rheumatism.**  
"I think Chamberlain's Liniment is just splendid for rheumatism," writes Mrs. Dunburgh, Eldridge, N. Y. "It has been used by myself and other members of my family time and again during the past six years and has always given the best of satisfaction." The quick relief from pain which Chamberlain's Liniment affords is alone worth many times the cost. Obtainable everywhere.

#### GERMANY'S CHEMICAL TRADES SUFFER SEVERELY FROM WAR

Zurich, Switzerland, April 15.—While high above the average in comparison with other trades, Germany's chemical industries have suffered severely from the war, according to the balance sheet of 162 chemical companies of the year 1915. Exports have almost ceased, profits and dividends have decreased about 4 per cent, and large numbers of men are reported out of work.

**Should Not Feel Discouraged.**  
So many people troubled with indigestion and constipation have been benefited by taking Chamberlain's Tablets that no one should feel discouraged who has not given them a trial. They contain no pepsin or other digestive ferments, but strengthen the stomach and enable it to perform its functions naturally. Obtainable everywhere.

#### HIGH PRICE OF PAPER STOPS CHINESE PAPERS

Pekin, April 15.—Because of the increase in the price of paper, the central government, through the ministry of agriculture and commerce, has instructed the paper mill at Hankow to increase its output. Small newspapers throughout China are closing down because of the high price of paper, and even dailies in

the larger cities have been compelled to cease publication.
